

May 25<sup>th</sup>, 2011

Dear Mr. Michael Chao,

It's been amazing work with you this year. You've been a fantastic class advisor for our Class of 2011 and I'm sure others also appreciate your tremendous hard work.

Even though you were extremely busy throughout the whole year with many issues such as coordinating the IB Diploma, I'm so thankful how you always managed to find time to help not only me fulfill my duty as the Senior Class President but also our entire class. In fact, I still remember when I felt relieved when you happily agreed to be our class advisor. I was afraid that you would be too busy. Without your great support and advices, I doubt if I would've been able to achieve what I did this year for my class and the Student Council.

After having you as my Advanced Pre-Calculus teacher in 11<sup>th</sup> grade and working with you as the Senior Class President this year, I learned so much and I know that I've become a more mature, organized, and communicative person. I truly admire your time management skills and your dedication to our class. On behalf of Class of 2011, I can confidently say that we couldn't have asked for a better class advisor. Thank you, Mr. Chao.

Sincerely,

MJ Kim
